

## Royal Cotton Picker Grease

### *Semi-Fluid Cotton Picker Grease*

**Royal Cotton Picker Grease** is a light green, smooth and semi fluid grease specifically designed for cotton picker spindle heads. This grease is formulated with premium quality base oil, lithium 12-hydroxy thickener and a synergistic combination of performance additives that exceed the requirements of the application.

**Royal Cotton Picker Grease** is formulated with high quality, anti-wear properties to ensure the sliding mechanisms are protected and remain fully functional. It is also equipped with anti-oxidation and corrosion inhibitors to protect against any rusting or deterioration of the equipment.

#### Product Features:

- Very good flow properties
- Corrosion inhibitors protect working parts
- Anti-wear properties help safeguard the spindle and bearings
- Wide temperature operability
- Minimizes water washout helps guard bearings from moisture and corrosion

Specifications and Approvals	Royal Cotton Picker Grease
John Deere 380, 360 and 305	✓
Case IH B-27	✓

#### Customer Benefits:

- NLGI # 00 consistency provides even flow for spindle protection
- Unique additive combination provides extra protection to spindles against wetting agents, defoliants and plant juices.
- Superior quality anti-wear additive protects equipment against wear and corrosion
- Works efficiently in cold temperatures and also at moderately high temperatures

#### Applications:

- **Royal Cotton Picker Grease** is specifically designed to be used with picker spindles, picker bars and chassis bearings.

## Typical Properties

### Royal Cotton Picker Grease

Product Number	905 GD	Test Method
Color	Green	Visual
Texture	Smooth	Visual
NLGI Grade	00	ASTM D 217
Worked Penetration	400-430	ASTM D-217
Drop Point ,° F	N/A	ASTM D 2265
Viscosity @ 40 C ,cSt	N/A	
Viscosity @ 100 C cSt	N/A	
Viscosity @ 100 F ,SUS	115	ASTM D 445
Viscosity @ 210 F ,SUS	40	
Type of thickener	Lithium 12 Hydroxy	-

These properties are typical of the current production. Variations that do not affect product performance are to be expected depending on blending and manufacturing locations. The information above is subject to change without notice.

**Health and Safety:**

This product is unlikely to have any adverse health implications or safety hazards when used for its intended application. Avoid contact with skin, use resistant gloves when handling used oil. If skin comes in contact wash immediately with soap and water. For complete information on safe handling and product characteristics please refer to the Material Safety Data Sheet (MSDS) found on our website. [www.royalmfg.com](http://www.royalmfg.com) or call (918)-584-2671.
