SECTION 1: IDENTIFICATION OF THE SUBSTANCE /MIXTURE AND OF THE COMPANY /UNDERTAKING

1.1 GHS Product Identifier

Product Name: Crown Royal (Moly/Graphite) EP Grease

1.2 Other Means of Identification:

Product Code: 910 MA, 910 MB, 910 MC

Synonyms: Lithium Complex Moly EP Grease

1.3 Relevant identified uses of the substance or mixture and uses advised against

Product Use: Lubrication
Uses advised against: No information available

1.3 Details of supplier of safety data sheet

Manufacturers/Supplier: Royal Mfg Co LP
516 S, 25th West Ave, Tulsa, OK 74127

Telephone Number: (918) 584 - 2671
Emergency Telephone Number: (918) 584 - 2671
Email Address: Info@royalmfg.com

SECTION 2: HAZARD IDENTIFICATION

2.1 Classification of the substance of mixture

OSHA Hazard Communication Standard: This material is considered hazardous in accordance with OSHA HazCom 2012, 29 CFR 1910.1200

2.1 GHS Label Element, Including Precautionary Statements

Emergency Overview
**Signal Word**: Warning

**Hazardous Statements**
- Causes serious eye irritation
- Causes Skin Irritation

**Appearance**: Black  
**Physical State**: Semi-Solid  
**Odor**: Slight Petroleum

### 2.3 Precautionary Statements:

**Prevention:**
- Wash face, hands and any exposed skin thoroughly after handling
- Wear eye/face protection

**General advice**: None

**Eyes**
- If in eyes: Rinse cautiously with water for several times. Remove contact lenses, if present and possible to do so.
- If eye irritation persists, get medical attention

**Storage**: None

**Disposal**: None

**Hazard not otherwise classified (HNOC)**: Not Applicable

**Other Information**:  
May be harmful to aquatic life.  
25.49% of the mixture consists of ingredient(s) with unknown toxicity

### SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

**Synonyms**: High Viscosity Lithium Complex EP Grease

*The exact percentage of ingredients are withheld as trade secret

**Additional information**:  
As per 29 CFR 1910.1200 paragraph (i), formulation is considered as trade secret and therefore specific chemical names and their percentages of components used have not been disclosed. The details about their specific chemical names and their percentages may be provided on request to health
professionals, authorized representatives of regulatory authority, employees concerned in accordance with applicable provisions of this paragraph.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

General information: Not expected to be health hazard if used under normal conditions

Inhalation: Under normal conditions of intended use, this material is not expected to be inhalation hazard. If some symptom exists, remove to fresh air. If not breathing, give artificial respiration. Get medical attention

Skin Contact: Remove contaminated clothes. Flush exposed area with plenty of water followed by washing by soap, if available. If persistent irritation occurs, obtain medical attention. If product is injected into or under the skin due to any reason, the victim, regardless of size or appearance of wound, victim should be brought immediately to medical attention for emergency surgical needs. Though the initial symptoms due to high pressure injection may be minimal / absent, early surgical treatment may significantly reduce the extent of injury.

Eye Contact: Immediately flush with large quantities of cool water for at least 15 minutes including under eyelids. Keep eye wide open while rinsing. If symptoms persist get medical attention.

Ingestion: Drink plenty of water. In general no treatment is necessary unless large quantities are swallowed; however, it’s advisable to take medical attention. Do not induce vomiting unless directed by medical personnel. Do not give anything by mouth by an unconscious person.

Most Important Symptoms /Effects Acute and Delayed:

Most important symptoms / effects: No information available

Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary:

Note to Physician: Treat symptomatically

Self-protection for first aider: When administering the first aid, ensure that you are wearing the appropriate personal protective equipment according to the incident, injury and surroundings.

SECTION 5: FIRE FIGHTING MEASURES

5.1 Extinguishing Media:

Suitable extinguishing media: Water Spray (fog), dry chemical, foam, or carbon dioxide, sand to extinguish flames.

Unsuitable extinguishing media: Water stream may splash burning liquid and spread fire.

5.2 Special hazard arising from the substances or mixture: Hazardous combustion product may include a complex mixture of airborne solid and liquid particulates and gases (smoke), carbon monoxide, unidentified inorganic and organic compounds.

Explosion Data:

Sensitivity to Mechanical Impact: None
Sensitivity to Static Discharge: None
5.3 Advice to firefighters: Proper protective equipment include chemical resistant gloves to be worn, chemical resistant suit is recommended when large contact with spill product is expected. Self-contained breathing apparatus (SCBA) must be worn when approaching a fire in confined area. Select the fire fighters clothing approved by relevant standard e.g., MSHA/NIOSH approved or equivalent and full protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch and walk through spill area. Do not touch damaged container or spilled material unless wearing appropriate protective clothing/equipment. Ventilate the closed area.

6.2 Emergency procedures

Isolate the spill / leak area in all directions for about 50 meters (150 ft) for liquids and about 25 meters (75 ft.) for solids and semi-solids. Eliminate all ignition sources (no smoking, flares, sparks / flames in close vicinity). Keep unauthorized person away and ventilate closed space before entering.

6.3 Environmental procedures:

Use appropriate measures for containment of spilled material to the environment. Prevent from entering/ spreading to drain, water, river, ditches by using sand, earth, floor dryers or other appropriate barriers.

6.4 Methods and materials for containment and cleaning up

Shovel into suitable properly marked container for disposal or reclamation in accordance with local regulations.

6.5 Reference to other sections

Refer to section 8 – exposure control / personal protection and section 13- disposal considerations

SECTION 7: HANDLING AND STORAGE

7.1 General Precautions

Store in well-ventilated area, if risk on vapor inhalation is there. Use the information in this data sheet as input for risk management arising due to local conditions which help to manage safe handling of this product.

7.2 Precautions for safe handling

Avoid prolonged and repeated contact with skin. Avoid inhaling the vapors/mist. When handling the drums, kegs, pails etc., proper safety shoes, and other protective clothes, safety glasses etc. should be worn. Dispose appropriately any contaminated rags/material as per prevailing local allowable practices. Keep containers in closely tight and, cool and well ventilated areas.

7.3 Conditions for safe storage, including any incompatibilities
Keep containers tightly close, well-ventilated areas but covered, avoiding contact with rain or other water ingress possibilities. Keep the storage place cool preferably <120 ° F / <50 ° C. Higher temperature may create pressure buildup inside container and chances of container busting or leakage may occur under aggravated conditions. Keep away from other oxidizing and incompatible materials.

**Incompatible Products:** Strong oxidizing agents . Strong reducing agents

**SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION**

**8.1 Control parameters**

**Exposure Guidelines**

*Immediate dangerous to life or health. ACGIH TLV: American Conference of Government Industrial Hygienists –Threshold Limit Values. OSHA PEL: Occupational Safety and Health Administration – Permissible Limits.*

**Other Exposure Guidelines:** Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F. 2d 962. (11th Cir., 1992).

**8.2 Appropriate engineering controls**

**Engineering Measures:**
- Showers
- Eyewash stations
- Ventilation systems

**8.3 Individual protection measures, such as personal protective equipment:**

**Eye/Face Protection:** Safety glasses with side-shields. Risk of contact, wear: Chemical splash goggles.

**Skin and Body Protection:** Impervious clothing. Protective gloves.

**Respiratory Protection** If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn.

**Hygiene Measures** When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing. Keep away from food, drink and animal feeding stuffs. Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.

**8.4 Personal protective equipment pictograms**

![Pictograms]
8.5 Environmental Exposure controls
Minimize release to the environment. Follow best practices for site management and disposal of waste as per local regulations

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

| Explosive properties       | No data available        |
| Oxidizing properties       | No data available        |

Other Information

| Electrical conductivity    | Though no data available, this material is not expected to be a static accumulator |

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity :
No reactivity is expected under normal conditions of intended use. However, under high temperature or adverse operating conditions thermal / chemical decomposition of the product may be possible

10.2 Chemical Stability :
No hazardous reaction is expected under normal conditions of temperature and pressure

10.3 Possibility of hazardous reactions
None under normal processing

10.4 Hazardous Polymerization
Not likely to occur

10.5 Conditions to avoid
Extreme temperature and direct sunlight / heat /flame

10.6 Incompatible materials
Strong oxidizing agents or strong reducing agents

10.7 Hazardous decomposition products
Carbon dioxides, Nitrogen oxides (NOX), Sulfur oxides
SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on Likely Routes of Exposure

**Inhalation:** There is no data available for this product.

**Eye Contact:** Causes serious eye irritation.

**Skin Contact:** Causes skin irritation

**Ingestion:** There is no data available for this product

Symptoms related to the physical, chemical and toxicological characteristics

**Symptoms** No information available.

**Delayed and immediate effects and also chronic effects from short and long term exposure :**

**Sensitization** No information available.

**Mutagenic Effects** No information available.

**Carcinogenicity** The table below indicates whether each agency has listed any ingredient as a carcinogen. The classification listed below for the petroleum distillates in this product pertains to those that contain more than 3% DMSO extract as measured by IP 346. The petroleum distillates in this product do not meet that criteria to be classified as carcinogens.

**Persistence and Degradability:** No information available.

**Bioaccumulation:** No information available.

**Other Adverse Effects:** No information available.

**SECTION 13: DISPOSAL INFORMATION**

13.1 Waste treatment methods

**Product disposal**

Try to minimize the product waste by using best applicable practices. It is the responsibility of the waste generator to evaluate the waste classification and appropriate disposal methodology in accordance with the applicable regulation. Do not dispose into environment, in drain or in river / ponds / water reservoirs.

**Container disposal**

To be disposed in accordance with local prevailing and allowable regulations.
